

Savitribai Phule Pune University

T.Y. B.Sc. (Cyber and Digital Science)

Semester – V

CDS-356

Lab on CDS-353

**(Information Security Policy
and Audit Laboratory)**

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create an information security policy for an organization covering data protection, access control, and incident response. **[15M]**

Q2 Perform a gap analysis of an organization's existing policy and recommend improvements for compliance with GDPR. **[10M]**

Q3 Viva **[5M]**

Questions on the importance of information security policies and GDPR compliance.

Q4 Lab Book **[5M]**

Document the information security policy creation and gap analysis.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Conduct a risk assessment for an organization using ISO/IEC 27005 and create a risk management report. **[15M]**

Q2 Perform an internal audit on user access control policies and identify any compliance violations. **[10M]**

Q3 Viva **[5M]**

Questions about ISO/IEC 27005 and user access control audits.

Q4 Lab Book **[5M]**

Document the risk assessment and audit findings.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Design a data classification policy for an organization, focusing on confidentiality, integrity, and availability. **[15M]**

Q2 Perform a compliance audit to check adherence to data classification standards within an organization. **[10M]**

Q3 Viva **[5M]**

Questions about data classification policies and their role in information security.

Q4 Lab Book **[5M]**

Record the process of creating the data classification policy and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Develop an acceptable use policy (AUP) for an organization, covering internet, email, and mobile device usage. **[15M]**

Q2 Conduct a review of an organization's AUP and suggest changes based on current security trends. **[10M]**

Q3 Viva **[5M]**

Questions about AUPs and how they protect an organization's resources.

Q4 Lab Book **[5M]**

Document the creation and review of the AUP.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create a business continuity plan (BCP) for an organization that includes disaster recovery strategies. **[15M]**

Q2 Perform an audit of an existing BCP and highlight any gaps in disaster recovery protocols. **[10M]**

Q3 Viva **[5M]**

Questions about the importance of BCP and disaster recovery.

Q4 Lab Book **[5M]**

Record the development of the BCP and audit findings.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Write an incident response policy for a company to handle cyber threats like ransomware or data breaches. **[15M]**

Q2 Conduct an audit on an organization's incident response capabilities and suggest improvements. **[10M]**

Q3 Viva **[5M]**

Questions about incident response policies and real-life case studies.

Q4 Lab Book **[5M]**

Document the steps for writing the incident response policy and audit.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create a compliance checklist for an organization to adhere to ISO/IEC 27001

standards. [15M]

Q2 Perform a compliance audit of an organization's current information security management

system (ISMS). [10M]

Q3 Viva [5M]

Questions about ISO/IEC 27001 compliance and ISMS auditing.

Q4 Lab Book [5M]

Document the creation of the compliance checklist and audit.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Develop a privacy policy for an organization that aligns with data protection laws such as CCPA or GDPR. **[15M]**

Q2 Conduct an audit of an organization's current privacy practices and identify any legal non-compliance. **[10M]**

Q3 Viva **[5M]**

Questions about privacy policies and legal frameworks (CCPA/GDPR).

Q4 Lab Book **[5M]**

Record the development of the privacy policy and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Write an audit plan to assess the physical and environmental security controls of an organization. **[15M]**

Q2 Conduct a vulnerability assessment of an organization's physical security controls (e.g., access control systems). **[10M]**

Q3 Viva **[5M]**

Questions about physical security and its impact on information security.

Q4 Lab Book **[5M]**

Document the audit plan and vulnerability assessment.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create a network security policy for an organization focusing on firewalls, VPNs, and secure communication. **[15M]**

Q2 Perform an audit of the organization's network security policies and provide recommendations for improvement. **[10M]**

Q3 Viva **[5M]**

Questions on the importance of network security policies and firewall management.

Q4 Lab Book **[5M]**

Document the creation and audit of the network security policy.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Develop a mobile device management (MDM) policy for a company that deals with BYOD (Bring Your Own Device). **[15M]**

Q2 Audit the company's mobile device usage and evaluate the effectiveness of its current MDM controls. **[10M]**

Q3 Viva **[5M]**

Questions about BYOD policies and the role of MDM in securing mobile devices.

Q4 Lab Book **[5M]**

Record the development of the MDM policy and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Write a security awareness training policy for employees in an organization. **[15M]**

Q2 Conduct an audit of the organization's current security awareness training program and suggest improvements. **[10M]**

Q3 Viva **[5M]**

Questions on the importance of security awareness programs for reducing insider threats.

Q4 Lab Book **[5M]**

Document the creation of the security awareness policy and audit findings.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create a cloud security policy for an organization to ensure secure use of cloud

services. [15M]

Q2 Perform an audit of an organization's cloud service providers for compliance with the cloud security policy. [10M]

Q3 Viva [5M]

Questions about cloud security policies and auditing cloud service providers.

Q4 Lab Book [5M]

Record the creation of the cloud security policy and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Develop a third-party vendor risk management policy for an organization. **[15M]**

Q2 Conduct a vendor risk assessment for one of the organization's suppliers and identify any gaps. **[10M]**

Q3 Viva **[5M]**

Questions about the importance of third-party risk management in information security.

Q4 Lab Book **[5M]**

Document the vendor risk management policy and assessment findings.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create a data retention and destruction policy that complies with regulatory requirements (e.g., GDPR, HIPAA). **[15M]**

Q2 Audit the data retention practices of an organization and suggest improvements for compliance. **[10M]**

Q3 Viva **[5M]**

Questions about data retention policies and compliance requirements.

Q4 Lab Book **[5M]**

Record the development of the data retention policy and audit findings.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Develop a social media use policy for employees to ensure the safe use of social platforms in the workplace. **[15M]**

Q2 Audit an organization's social media activity for potential security risks and non-compliance with the policy. **[10M]**

Q3 Viva **[5M]**

Questions about social media risks and how policies can mitigate them.

Q4 Lab Book **[5M]**

Document the social media use policy and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create an audit checklist for evaluating an organization's compliance with PCI DSS (Payment Card Industry Data Security Standard). **[15M]**

Q2 Perform an internal audit of an organization's payment processing systems for PCI DSS compliance. **[10M]**

Q3 Viva **[5M]**

Questions about PCI DSS requirements and their importance in safeguarding payment systems.

Q4 Lab Book **[5M]**

Document the audit checklist and PCI DSS compliance audit findings.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Write a policy for securing personally identifiable information (PII) within an organization. **[15M]**

Q2 Conduct a PII audit to check how effectively the organization handles, stores, and protects sensitive data. **[10M]**

Q3 Viva **[5M]**

Questions about PII protection policies and related regulations.

Q4 Lab Book **[5M]**

Record the creation of the PII protection policy and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create a compliance framework for an organization to align with HIPAA (Health Insurance Portability and Accountability Act). **[15M]**

Q2 Perform an audit of an organization's healthcare data management practices for HIPAA compliance. **[10M]**

Q3 Viva **[5M]**

Questions on HIPAA requirements and healthcare data security.

Q4 Lab Book **[5M]**

Document the development of the HIPAA compliance framework and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Develop a secure password policy for an organization focusing on password complexity and expiration. **[15M]**

Q2 Audit the organization's current password management practices and identify any vulnerabilities. **[10M]**

Q3 Viva **[5M]**

Questions on password policies and their importance in preventing unauthorized access.

Q4 Lab Book **[5M]**

Document the secure password policy creation and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create a log management policy for ensuring proper logging and monitoring of security events.

[15M]

Q2 Perform an audit of an organization's log management practices and recommend improvements for better security monitoring.

[10M]

Q3 Viva

[5M]

Questions on the importance of log management in security monitoring.

Q4 Lab Book

[5M]

Document the creation of the log management policy and audit findings.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Write a policy for managing encryption standards within an organization to secure sensitive data. **[15M]**

Q2 Conduct an audit of the organization's encryption practices and evaluate their effectiveness in securing data. **[10M]**

Q3 Viva **[5M]**

Questions about encryption policies and key management.

Q4 Lab Book **[5M]**

Record the development of the encryption policy and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Develop a compliance audit plan for evaluating adherence to the NIST Cybersecurity Framework. **[15M]**

Q2 Perform a NIST CSF-based audit of the organization's cybersecurity posture and suggest improvements. **[10M]**

Q3 Viva **[5M]**

Questions on the NIST CSF and its role in strengthening cybersecurity.

Q4 Lab Book **[5M]**

Document the compliance audit plan and audit findings.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Create a security audit checklist for evaluating an organization's adherence to cybersecurity best practices. **[15M]**

Q2 Conduct a cybersecurity audit using the checklist and identify areas of improvement. **[10M]**

Q3 Viva **[5M]**

Questions about the role of cybersecurity audits in maintaining security.

Q4 Lab Book **[5M]**

Record the audit checklist creation and audit results.

Savitribai Phule Pune University
T.Y. B.Sc (Cyber and Digital Science) Sem-V
CDS-356 Lab on CDS-353 (Information Security Policy and Audit)

Time : 3 Hours

Max. Marks: 35

Q1 Develop an IT governance framework for an organization, ensuring alignment with business objectives. **[15M]**

Q2 Perform an audit of the organization's IT governance processes and suggest improvements. **[10M]**

Q3 Viva **[5M]**

Questions about IT governance and how it supports organizational goals.

Q4 Lab Book **[5M]**

Document the development of the IT governance framework and audit results.
